Art Unit: 1653

This Office Action is in response to Paper #11, filed February 6, 2002. Claims 1-21 and 26 have been canceled. Claims 22-25 and 27-37 are currently pending and are under examination.

Withdrawal of Rejections

The rejection of Claims 22-32 under 35 U.S.C. 102(e) as being anticipated by Gosselin et al. (USP 5,789,441; priority to February 15, 1996) is withdrawn.

New Rejections

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 28-37 are rejected under 35 U.S.C. 102(e) as being anticipated by Gosselin et al. (USP 5,789,441; priority to February 15, 1996). Gosselin et al. teach leukotriene LTB₄ in a sterile liquid (cols. 11-13 and Example I, col. 14, lines 15-16, for example). The term "LTB₄" includes leukotrienes C₄, D₄, and E₄ (col. 6, line 52). Therefore, a solution comprising a sterile liquid and a leukotriene (Claims 22, 26, 27, 28, 32), wherein the leukotriene is LTB₄ (Claims 23, 29), or wherein the leukotriene is a cysteinyl leukotriene (Claim 24, 30) such as leukotrienes C₄, D₄, and E₄ (Claims 25, 31) is taught by Gosselin et al.

While the claims recite that the solution is in an endotracheal tube, a bronchoschope, or a nebulizer, for example, these phrases are given no patentable weight. See *Union Oil Co.* of

Art Unit: 1653

California v. Atlantic Richfield Co., 54 USPQ2d 1227, In re Rosicky, 125 USPQ 341; In re Riden et al., 138 USPQ 112; In re Lerner 169 USPQ 51. Therefore, the Claims are anticipated by Gosselin et al. as set forth above.

Claims 22, 23, 27, 33, 34, and 37 are rejected under 35 U.S.C. 102(b) as being anticipated by Imai et al. (1990; Jpn J. Allergol 39(10): 1380-1387). Imai et al. teach leukotriene B4 as in aerosol generated from a nebulizer, for the administration to dogs. Therefore, an aerosol of leukotriene B4 in a sterile liquid vehicle that is aerolsolized (Claims 22, 23, 27) is taught by Imai et al. This solution was placed into a nebulizer (Claims 33, 34, 37).

Claims 22, 24, 25, 27, 33, 35, 36, and 37 are rejected under 35 U.S.C. 102(b) as being anticipated by Fujimura et al. (1991; Prostaglandins 42(4):379-389). Fujimura et al. teach the administration via inhalation of leukotriene C4 from a nebulizer to guinea pigs. Therefore, an aerosol of leukotriene C4 in a sterile liquid vehicle that is aerolsolized (Claims 22, 24, 25, 27) is taught by Fujimura et al. This solution was placed into a nebulizer (Claims 33, 35, 36, 37).

Claims 22, 24, 25, 27, 33, 35, 36, and 37 are rejected under 35 U.S.C. 102(b) as being anticipated by Ball et al. (1991; J. Pharmacol. Methods 26(3):187-202). Ball et al. teach the administration via inhalation of leukotriene D4 from a nebulizer to guinea pigs. Therefore, an aerosol of leukotriene D4 in a sterile liquid vehicle that is aerolsolized (Claims 22, 24, 25, 27) is taught by Ball et al. This solution was placed into a nebulizer (Claims 33, 35, 36, 37).

Claims 22, 24, 25, 27, 33, 35, 36, and 37 are rejected under 35 U.S.C. 102(b) as being anticipated by O'Donnell et al. (1984; Agents Actions 14(1): 43-48). O'Donnell et al. teach the administration via inhalation of leukotriene E4 from a nebulizer to guinea pigs. Therefore, an

Art Unit: 1653

aerosol of leukotriene E4 in a sterile liquid vehicle that is aerolsolized (Claims 22, 24, 25, 27) is taught by O'Donnell et al. This solution was placed into a nebulizer (Claims 33, 35, 36, 37).

Claims 28, 29, and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Martin et al. 1989; J. Clin Invest. 84:1609-1619). Martin et al. teach leukotriene B4 in a sterile solution in a bronchoscope – see page 1610, col. 1, para. 1.

Claims 28, 29, and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Iwama et al. J. Pharm. Pharmacol. 45(4):286-291). Iwama et al. teach leukotriene B4 in a sterile solution that is administered by intra-tracheal injection. Therefore, this solution was placed into an endotracheal tube.

No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
